

I'd like to make the dolls elsewhere so that I don't have to worry about my family.

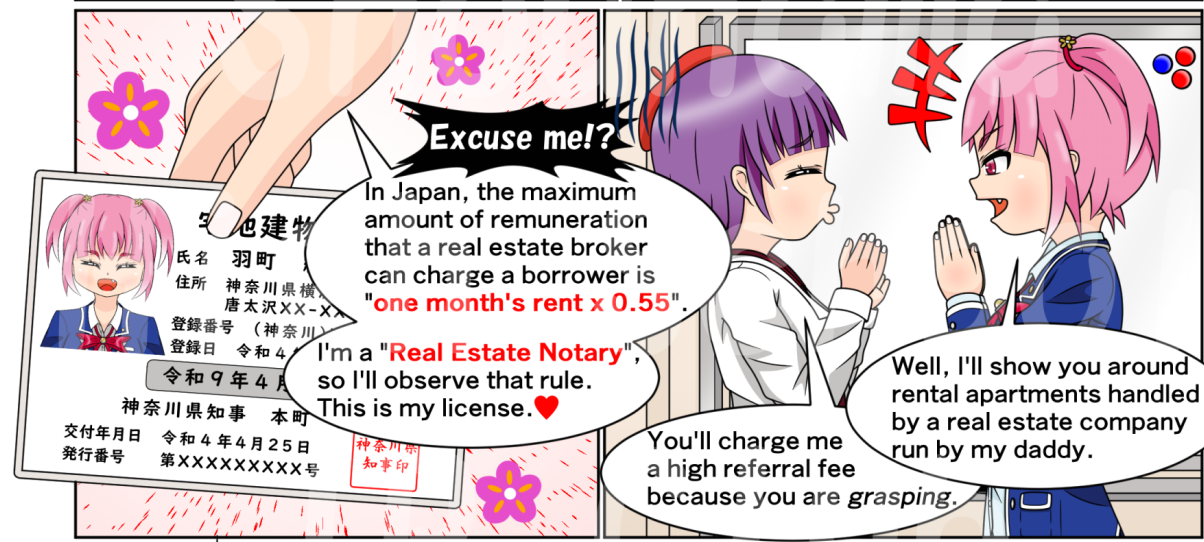

First, I sometimes use paints that give off a strong odor. Next, I sometimes use an electric drill that makes a loud noise.

I agree with your parents' intentions. But what is the reason?

My parents intend to limit me from making dolls modeled on you at home.

I'm sorry that my doll is stinky and noisy and bothers you.

Qualifications we're having Part 9
Real Estate Notary

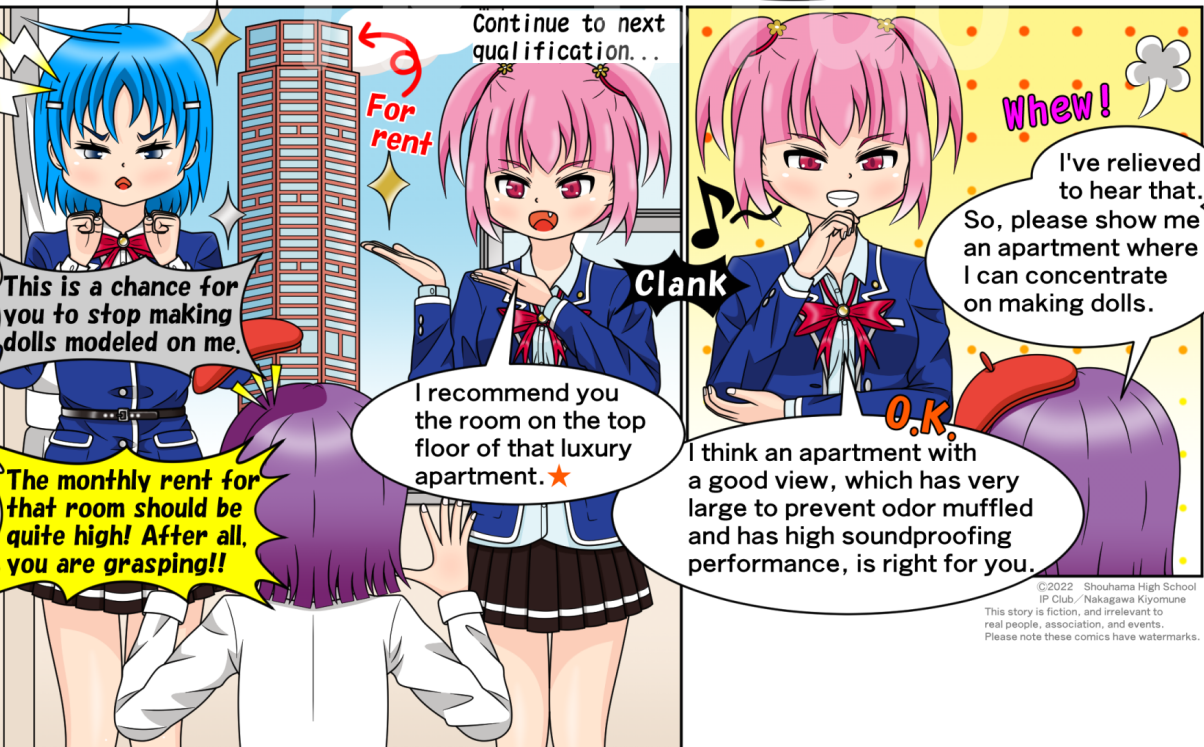

Excuse me!? In Japan, the maximum amount of remuneration that a real estate broker can charge a borrower is "one month's rent x 0.55".

I'm a "Real Estate Notary", so I'll observe that rule. This is my license. ♥

Well, I'll show you around rental apartments handled by a real estate company run by my daddy.

You'll charge me a high referral fee because you are grasping.

This is a chance for you to stop making dolls modeled on me.

The monthly rent for that room should be quite high! After all, you are grasping!!

I recommend you the room on the top floor of that luxury apartment. ★

Whew! I've relieved to hear that. So, please show me an apartment where I can concentrate on making dolls.

O.K. I think an apartment with a good view, which has very large to prevent odor muffled and has high soundproofing performance, is right for you.
